“The follow up after each class and emails with materials before the class – all were excellent! This was a great program. I don’t think it is possible to interact with the RA instructors and not get energized! There were so many great ideas, handouts, examples, etc. that have already helped and will be a great reference for me to go back to. They were excellent at connecting with me when I reached out to them for help on some specific questions. I have absolutely enjoyed the course and have learned a great deal.”

"I have been to many recruiting training sessions and this was the first one that provided a way to quantify what I do!"

"Great method, "implementable" program - very hard to find that at training sessions. They are usually very "ideal" but not realistic. This is realistic! Very thorough, honest, & detailed."

"It was just right to cover all topics without rushing or dragging it out. It was solid, tactical information - so many programs are too general/broad-based - this was a perfect "how-to" training!"

"Fantastic! Great tools. Pertinent information to our jobs specifically. Not many classes do that!"

"If you are considering working with LHC, then you have certainly made a great choice. They are absolutely the best we have worked with. They don't just provide "training" - They provide knowledge that will make a difference for your recruiters, hiring managers, candidates, and for the bottom line of the business. It's not facilitation from a training manual either. It's real-life learning and examples from their own experience and work with dozens of other companies. If that's not enough, add in a passion and excitement that comes from really loving what they do."

LEAN instructors truly know recruiting and I learned a great deal from their expertise and willingness to be so frank and open about everything. I would definitely recommend this educational program to other healthcare recruitment professionals. It is well worth the time and money invested! You won't regret it."

"I think the way it is done is great - the interaction between all of the other participants/recruiters (it is always interesting to hear how others do things). I also feel the intake form they provided and we adapted has been very helpful as well as the way to enhance our job postings by using attention grabbers. The fact that they give instant feedback is helpful and the weekly testing makes it easier to retain the information."

“Have had some good experiences w/searches on LinkedIn, searching for 4 different jobs. Got cudos from one manager :), and have been using your INTAKE form for some questions to ask. I think it made an impression. Oh, and even though two of the coders I contacted for a job on LinkedIn wrote back and were not interested, they told their AAPC chapter people, the chapter posted the job and I got two responses from members about the job. You've got some great ideas. Thanks!”

RECRUITER
